

Prayag Production Analytics

Tank Litre Summary

Period: August 2026

Data Confirmation

■ 16 flag(s)

Completeness: 0/7 files · n/a machines · 3/3 months

The August 2026 data cannot currently be trusted as all seven daily production files returned no readable figures, and none of the product lines including Pipe and Fitting, PTMT, Garden Pipe, HDPE, and all three Tank lines show any recorded output for the period. In addition, the Moulding daily report could not be parsed at all due to an unrecognised layout, meaning even manual checking would require the file to be reformatted. The factory manager should confirm whether August production data has actually been entered into the workbooks yet, and if so, arrange for the Moulding file layout to be corrected so the system can read it.

- **[Completeness]** PIPE — No data read from Pipe & Fitting daily (2026-08) — workbook returned nothing for this period.
- **[Completeness]** PTMT — No data read from PTMT daily (2026-08) — workbook returned nothing for this period.
- **[Completeness]** GARDEN — No data read from Garden Pipe daily (2026-08) — workbook returned nothing for this period.
- **[Completeness]** HDPE — No data read from HDPE daily (2026-08) — workbook returned nothing for this period.
- **[Completeness]** TANK — No data read from Tanks (KH) daily (2026-08) — workbook returned nothing for this period.
- **[Completeness]** TANK_VN — No data read from Tanks (VN) daily (2026-08) — workbook returned nothing for this period.
- **[Completeness]** TANK_WB — No data read from Tanks (WB) daily (2026-08) — workbook returned nothing for this period.
- **[Reconciliation]** PIPE 2026-08: the daily report is present but no production has been recorded for this period yet.

Data Confirmation — all issues

16 issue(s) in total — 0 error(s), 16 warning(s)/flag(s). Grouped by check tier; errors listed first within each tier.

Completeness (8)

- PIPE — No data read from Pipe & Fitting daily (2026-08) — workbook returned nothing for this period.
- PTMT — No data read from PTMT daily (2026-08) — workbook returned nothing for this period.
- GARDEN — No data read from Garden Pipe daily (2026-08) — workbook returned nothing for this period.
- HDPE — No data read from HDPE daily (2026-08) — workbook returned nothing for this period.
- TANK — No data read from Tanks (KH) daily (2026-08) — workbook returned nothing for this period.
- TANK_VN — No data read from Tanks (VN) daily (2026-08) — workbook returned nothing for this period.
- TANK_WB — No data read from Tanks (WB) daily (2026-08) — workbook returned nothing for this period.
- Figures not available yet — no data has been entered for this period.

Reconciliation (8)

- PIPE 2026-08: the daily report is present but no production has been recorded for this period yet.
- MOULDING 2026-08: the daily report could not be parsed (date/output layout not recognised).
- PTMT 2026-08: the daily report is present but no production has been recorded for this period yet.
- GARDEN 2026-08: machine tabs are present but no production has been recorded for this period yet.
- HDPE 2026-08: the daily report is present but no production has been recorded for this period yet.
- TANK 2026-08: production report is present but no output has been recorded for this period yet.
- TANK_VN 2026-08: production report is present but no output has been recorded for this period yet.
- TANK_WB 2026-08: production report is present but no output has been recorded for this period yet.
